

Aitor Reviriego Amor

Full Stack Developer | Refactoring, TDD & Code Quality

Valencia, Spain · [linkedin.com/in/aitor-reviriego-amor](#) · [github.com/aitorevi](#) · info@aitorevi.dev

PROFILE

Software Developer focused on building sustainable software. At Lean Mind I have rotated through projects across different sectors (HVAC, Fintech, e-commerce), adapting to new stacks (Java, TypeScript, C#/.NET) without sacrificing quality. I apply TDD, Clean Architecture and Refactoring as the foundation of all my work, and amplify that discipline with advanced AI usage. Over 20 years of prior business management experience bring product vision and maturity to the team.

EXPERIENCE

LEAN MIND · SOFTWARE DEVELOPER Mar 2026 - Present

Enterprise Billing & Compliance Platform

Integration in corporate billing platform with multi-country regulatory compliance. Refactoring and stabilization of legacy code applying Clean Architecture, SOLID and TDD. Advanced use of AI as a key tool to analyze, understand and evolve complex codebases.

C# · .NET · Jenkins · GitHub Copilot · Legacy Code · AI-Assisted Development

LEAN MIND · SOFTWARE DEVELOPER Oct 2024 - Feb 2026

Internal Projects & Automation

Complete redesign of corporate website focused on clean architecture, design, accessibility and SEO. E-commerce integration with Shopify. Development of time tracking tool with fully AI-guided development. Cloud infrastructure migration and continuous deployment. Intensive use of AI agents and workflows as a productivity multiplier across all projects.

Next.js · Shopify · Docker · Digital Ocean · Google Cloud · CI/CD · AI-Assisted Development

LEAN MIND · SOFTWARE DEVELOPER Jan 2024 - Oct 2024

Global HVAC Distribution Platform

Frontend development on an international HVAC distribution and sales platform. Large-scale application with monorepo, hexagonal architecture and test coverage as a safety net to evolve code with confidence.

Next.js · Turborepo · React · TypeScript · Tailwind · Testing · Hexagonal Arch

LEAN MIND · SOFTWARE DEVELOPER Mar 2023 - Jan 2024

Software Craftsmanship & Internal Projects

Intensive training in TDD, Refactoring and Clean Code. Full stack development on internal projects and e-commerce, prioritizing maintainable and scalable code from the start.

Hugo · Java · TypeScript · React · Pandoc · CSS · TDD

TIENDAS ZULIMA C.B. · FOUNDER & TECHNOLOGY LEAD 1998 - 2023

Comprehensive Management & Digitalization

25 years leading business operations and IT systems, aligning technology with sales goals.

EDUCATION

Higher Technician in Web Application Development 2020 - 2023

IES ABASTOS

Technician in Microcomputer Systems and Networks 2018 - 2020

IES SERPIS

CERTIFICATIONS

AI-Guided Software Development

LEAN MIND

Advanced Refactoring

LEAN MIND

Sustainable Testing with TypeScript

SOFTWARE CRAFTERS ACADEMY

Sustainable Code

LEAN MIND

SKILLS

Engineering Foundations: TDD · Software Craftsmanship · Refactoring · Clean Architecture · SOLID

Backend: Java · C# / .NET · Node.js · PostgreSQL · REST APIs

Frontend & UX: TypeScript · React · Next.js · Astro · TailwindCSS · Accessibility (A11y) · SEO

AI Engineering: Prompt Engineering · Claude Code · AI Agents & Workflows · Gemini · Copilot

Infrastructure: Docker · GitHub Actions · Google Cloud · Digital Ocean · CI/CD

Leadership: Team Leadership · Business Vision · Transparent Communication · Mentoring
